

HORTICULTURE TECHNOLOGY

Description

SouthernTech's Horticulture Technology program will give students the necessary tools to be successful in the growing Green industry, which is becoming one of Oklahoma's largest industries, or pursue a degree in Horticulture related fields. In the Horticulture Technology program students will engage in classroom and laboratory activities to learn about the structure and function of plants, gain hands-on experience through plant propagation, insect and pest control, plant diseases and their prevention. Students will also learn how to grow plants in large scale production, while working in a state of the art, on-campus greenhouse. Students will also gain retail sales experience through our Farmer's Market project. If this interests you, contact SouthernTech to enroll in Horticulture Technology and "Come Grow With Us".

Employment Options

Additional training may be required for some options listed: Agricultural Research Technician, Agricultural Research Technologist, Agricultural Technician, Laboratory Technician (Lab Tech), Research Assistant, Research Associate, Research Specialist, Research Technician, Seed Analyst - Approximate Pay Potential: \$10-\$31/Hour
